SUMMARY

Frontend-focused UX/UI Designer with 2.5+ years of experience designing and improving digital products across B2B SaaS, corporate and freelance environments. Experienced in translating Figma designs into responsive HTML, CSS/SCSS interfaces, maintaining HTML-based templates, and implementing UI updates. Skilled in building and maintaining design systems, reusable component libraries, and accessible interfaces following WCAG guidelines. Comfortable collaborating with Product Managers and developers throughout the product lifecycle, from discovery and prototyping to developer handoff, implementation, and QA. Fast learner with a strong interest in modern front-end technologies.

WORK EXPERIENCE

Web Designer, Clorian - B2b Sass Platform

Apr 2025 - Mar 2026

- Implemented UI improvements using HTML and SCSS, including maintaining HTML-based ticket templates and styling platform components such as footers, ensuring accurate implementation of product and client requirements.
- Owned end-to-end UX/UI design for a SaaS platform, from discovery to high-fidelity designs and developer handoff.
- Designed user flows, wireframes, interactive prototypes and final interfaces in Figma.
- Built and maintained a scalable design system and reusable component library, improving consistency across product modules.
- Collaborated daily with Product Managers and engineers throughout the design and implementation process.
- Participated in Agile ceremonies, sprint planning, reviews and continuous product improvements.

Web support (Freelance), Academia Europaea Barcelona

Sept 2024- Dec 2025

- Rebuilt page structure and navigation in WordPress (Elementor, Divi), improving content clarity and site consistency.
- Enforced accessibility standards (WCAG) across digital content updates.
- Managed ongoing website content updates while ensuring consistency, responsiveness, and accessibility standards.

Graphic and UI Designer, FCRI

Sept 2023 - Sept 2024

- Designed digital communication assets and web interfaces within a strict corporate brand system.
- Restructured website content architecture to reduce user drop-off and improve navigation clarity.
- Collaborated directly with the PM to present design solutions and iterate on requirements.
